SEVENTH ANNUAL CATALOGUE

OF THE

OFFICERS AND STUDENTS

1876-77

OF THE

INDIANA

STATE NORMAL SCHOOL,

AND

PROGRAMME

OF THE

COURSE OF INSTRUCTION.

1876-7.

---

TERRE HAUTE, IND.

---

INDIANAPOLIS:

SENTINEL COMPANY, PRINTERS.

1877.

## BOARD OF TRUSTEES.

---

HON. B. C. HOBBS, Bloomingdale, Parke county.

HON. A. C. HOPKINS, Indianapolis.

HON. JOHN T. SCOTT, Terre Haute.

HON. MURRY BRIGGS, Sullivan.

HON. JAMES H. SMART, Sup't Public Instruction.

---

## OFFICERS OF THE BOARD.

---

PRESIDENT,

HON. B. C. HOBBS, Bloomingdale, Parke county.

SECRETARY,

HON. JOHN T. SCOTT, Terre Haute.

TREASURER,

W. R. McKEEN, Esq., Terre Haute.

## FACULTY.

---

WILLIAM A. JONES, A. M., PRESIDENT,  
Didactics.

MARY A. BRUCE,\*  
English Grammar and Composition.

AMANDA P. FUNNELLE,  
Methods of Primary Teaching.

CYRUS W. HODGIN,  
History and Geography.

JOSIAH T. SCOVELL, A. M., M. D.,  
Natural Science and Geography.

JAMES M. WILSON,  
Mathematics.

BENJAMIN C. BURT, B. A.,  
Orthoepy, Reading, and English Literature.

W. W. PARSONS,  
Assistant in English Grammar and Composition.

---

\*The names of the Faculty are arranged in the order of seniority of appointment.

# NAMES OF STUDENTS

Who have been in attendance at the Indiana State Normal School during the scholastic year beginning September 1, 1876, and ending June 20, 1877. No name is inserted of any person who has not been in actual attendance at least one month.

## A SENIORS.

NAME.	RESIDENCE.
Charles E. Bickmore.....	Rising Sun, Ohio Co.
Alma J. Boore.....	Terre Haute, Vigo Co.
Olivia J. Bradshaw.....	East Liverpool, Ohio.
Albert E. Humke.....	Laketon, Wabash Co.
Marcia Mitchell.....	Terre Haute, Vigo Co.
Anna Moore.....	Franklin, Johnson Co.
Sarah E. Oosley.....	Terre Haute, Vigo Co.
William B. Woods.....	Elizaville, Boone Co.

## B SENIORS.

Ella C Burke.....	Rockville, Parke Co.
*James Caldwell.....	Robinson, Illinois.
Morgan Caraway.....	Sugar Creek, Hancock Co.
Elizabeth K. Chambers.....	Terre Haute, Vigo Co.
Mary E. De La Bar.....	Oquawka, Illinois.
J. Ida Dodson.....	Terre Haute, Vigo Co.
Leonora Dölson.....	Pimento, Vigo Co.
✓ Hattie Estabrook.....	Terre Haute, Vigo Co.
Joseph H. Ewbank.....	Guilford, Dearborn Co.

## THE PURPOSE OF THE SCHOOL.

The State Normal School was created by the Legislature for the special purpose of instructing and training teachers for the public schools of the State.

It is a part of the School System of the State.

The institution seeks to accomplish its purpose by thorough reviews, and by instruction in all the branches taught in the public schools; by observation and actual practice in the training schools connected with the Normal school; by a careful study of the objects and methods of education as determined by an analysis of mind, and as confirmed by intelligent experience; by a study and comprehension of the origin and the object of the Public School System of the State; by a study and comprehension of the relations of the teacher to the school, to the community, and to the State; and by the *professional spirit* which it seeks to awaken in the student.

---

## THE COURSE OF INSTRUCTION

Has been revised. It now includes not only the subjects required by law to be taught in the public schools, but also the elements of those branches of science and of philosophy of which the industrial, social, and political conditions of the people make them daily feel the want.

The character of the instruction is thorough and practical. It keeps constantly in view the wants of the teacher.

*behavior.*  
*A strong begin at Samplers*  
*complete work.*

## COURSE OF STUDY.

### FIRST TERM.

Arithmetic.

Grammar and Composition.

Orthoepy and Reading.

Theory of the School; the School System of the State.

Elementary Physics, including both Matter and Methods, one

half term.

Penmanship, with Methods in the same.

*Whole term with about length.*  
*strong classes: full term with vacation -*

### SECOND TERM.

Arithmetic.

Grammar and Composition, including Matter and Method.

Reading.

Geography.

Instruction in Morals, alternating with Orthography.

### THIRD TERM.

Arithmetic and Book-keeping.

Grammar and Composition, including Matter and Method.

Geography.

Methods in Reading and Number, with Observation and Practice.

Free-hand and Geometrical Drawing.

### FOURTH TERM.

Grammar and Composition, both Matter and Method.

Geography.

Physiology.

Algebra.

## FIFTH TERM.

Algebra.

Physics, one half term.

Methods in Geography, one half term.

Educational Psychology.

United States History, including Method.

*Give place to*

## SIXTH TERM.

Principles of Government, and Constitution of United States.

Botany.

Physics and Chemistry, including practice in Laboratory.

Educational Psychology.

*& Methods in Geo*

## SEVENTH TERM.

United States History finished.

General History, including Method.

Rhetoric, with study of Literature.

Methods, with Observation and Practice in Model Training  
Schools.

## EIGHTH TERM.

Geometry.

Geology and Zoology—Lectures.

English Literature.

Themes.

The foregoing table shows the terms during which the study of any given subject may be pursued by classes entering at the beginning of any term in the year.

It will be seen that classes entering at the opening of a Fall term, may remain out and teach during the Fall term of the third year, return at the beginning of the next term and complete the course by the close of the year.

Classes entering at the opening of the Winter term can pursue the studies in the order indicated in the table, and thus complete the course within eight consecutive terms from the time of entering.

Classes entering at the opening of the Spring term may pursue the regular course for four terms, teach during the Fall term, return for two terms more, teach a second Fall term, return for the remaining two terms and graduate with a regular class.

These plans are suggested for each class as a whole, but it will be observed that any student, entering at the beginning of any term, who has done, satisfactorily, one or more terms' work may remain out and teach one or more terms at any time, and returning, find a class doing the work for which he is prepared.

By following this plan, energetic students can work their way through the school. Such persons, when they have completed the course, are not only prepared theoretically for responsible positions, but they have had practical experience in organizing, instructing and managing schools. The graduate of the Normal School, who has had successful experience in teaching, is always in demand.

---

## CONDITIONS OF ADMISSION.

Students, if females, must be sixteen years of age; if males, eighteen. They must possess good moral character and average intellectual abilities. If residents of Indiana, they must promise to teach, if practicable, in the common schools of the State, a period equal to twice that spent as pupils in the Normal School.

They must pass a fair examination in Reading, Spelling, Geography, and Arithmetic through Percentage. They must

write a legible hand, and be able to analyze and parse simple sentences.

#### EXPENSES.

Board, including fuel and light, can be had in good families at \$3.25 to \$4.50 per week, according to quality of accommodations.

A number of boarding clubs have been organized, in which good boarding is secured at \$2.50 per week, or less. The facilities for this kind of boarding are ample.

#### WHAT TO DO ON ARRIVING.

Any one coming as a student, and unacquainted in the city, can report himself at the Normal Building at any seasonable hour, where some one will be found to give needed information in regard to boarding.

Students arriving by night trains, will find suitable accommodations at the Terre Haute House and the National House, which are on the line of the street railroad.

#### TIME OF THE COURSE OF INSTRUCTION.

The course of instruction can be completed by the *average* student in eight terms; by *abler* students in less time.

It is *not* necessary that the student should prosecute his studies during consecutive terms. He may attend one or more terms, stop to teach a term or more, then continue his studies.

#### BOOKS.

Students should bring with them such standard text books as they have on the common school branches, for the purpose of reference.

#### LIBRARIES.

There are good reference libraries in the school to which students have access without charge.

To know how to use books is an important part of the teacher's education. Attention is given to this matter.

## SPECIAL ATTENTION

is called to the following points:

1. Tuition is free, and there are no incidental fees.
2. The instruction is systematic, philosophical and organic.
3. The discipline is such as to lead the pupil to self-government and to the formation of a worthy character.
4. Two good literary societies are in successful operation.
5. *Observation and Practice* in the Training Schools.—Students are required to *observe* until they can accurately report and interpret the meaning of each exercise; to practice teaching under criticism until they can plan and conduct recitations and manage classes efficiently.
6. Successful *undergraduates* obtain good situations at good wages.
7. *Graduates* are commanding from \$50 to \$140 per month.
8. The diploma of the Normal School is, by law of the State, equivalent to a State certificate, relieving the holder from county examinations.
9. For those who can attend but one term, and who are qualified to receive it, a special course of instruction in methods of teaching, in organizing, classifying and managing schools will be given at the beginning of the spring and fall terms.
10. No student will be admitted to the Normal School who does not intend, *in good faith*, to qualify *himself* or *herself* to teach in the public schools of the State.
11. It is important that every student expecting to attend the Normal School should be present the *first day* of the term, that all may be examined at once and classed. Those who enter a few days *after* the beginning of a term, take, in their examination, the time of teachers which should be given to instruction. Besides, those who are tardy at entering, find it difficult to "make up" lost lessons.
12. Every student admitted to the Institution will be required to give satisfactory evidence of a good moral character, and of fair intellectual abilities. The personal appearance and the conduct of the individual, together with a letter from some

responsible citizen of known integrity, to whom the bearer is personally known, will be taken as evidence in reference to character.

13. After *reasonable* trial, if a student shows lack of ability, or of application, or of moral character, to achieve fair success as a student and a teacher, *he or she* will be kindly advised to withdraw from the school and seek some other occupation.

14. Those desiring other information respecting the Normal School, *than that contained in this Catalogue*, are requested to write to the President.

---

### POST-GRADUATE COURSE.

The State Board of Education, on application of the proper parties, and on their giving satisfactory evidence of their ability to do so, commissions high schools to prepare students for entering the State University.

Graduation from such commissioned High Schools is taken as evidence of qualifications for entering the University.

The purpose of the Normal School is to qualify teachers for teaching in the public schools of the State. In order that it may completely fill its purpose as a part of the school system of the State, opportunity and encouragement are given to those persons who, having completed the regular course, and having had successful experience in teaching, desire to return and pursue such a course of study as will qualify them to teach in any of the High Schools of the State, or to teach as principals of Graded Schools, and to act as Superintendents of such schools.

*Something more definite  
about text-books.*
