SHORT TERMS
SCHEDULES FOR THE SESSIONS OF
1935

Terre Haute, Indiana

CALENDAR

Mid-Spring Term begins April 29, 1935, and closes June 11, 1935

First Summer Term begins June 17, 1935, and closes July 19, 1935

Second Summer Term begins July 22, 1935, and closes August 22, 1935

Fall Quarter begins September 11, 1935, and closes December 6, 1935

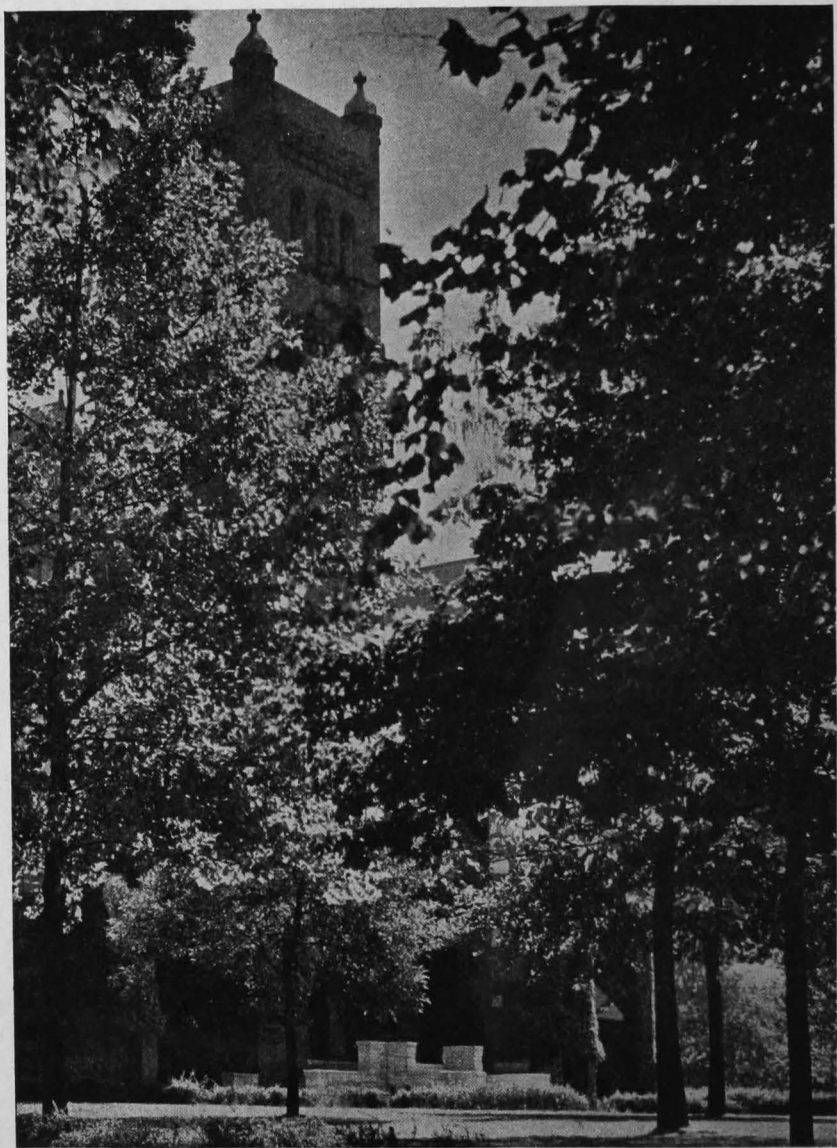

Winter Quarter begins December 9, 1935, and closes March 12, 1936

Spring Quarter begins March 18, 1936, and closes June 9, 1936

Indiana State Teachers College is a member of the American Association of Teachers Colleges, of the North Central Association of Colleges and Secondary Schools, and of the American Council on Education.

Indiana State Teachers College Bulletin, published January, February, March, April, May, June, August, and November each year by the Indiana State Teachers College, Terre Haute. Entered as second class matter March 14, 1930, at the Post Office at Terre Haute, Indiana, under the Act of Congress of August 24, 1912.

ADMINISTRATION BUILDING

MID-SPRING AND SUMMER TERMS

Short Terms—In addition to the three regular quarters of twelve weeks each, three terms are offered by the Indiana State Teachers College in the Mid-Spring Term, the First Summer Term, and the Second Summer Term. The Mid-Spring Term, which opens with the seventh week of the Spring Quarter and runs concurrently with it for the next six weeks, is largely for those teachers in the short term schools of the state who wish to do an added term of work in college during the spring and summer months. The summer terms each extend for five weeks with the work so arranged that attendance at these two terms is the equivalent of one regular quarter.

Registration—Registration will be held for all students on the opening day of each term. The Mid-Spring Term opens on Monday, April 29, 1935, and closes at noon on Tuesday, June 11, 1935. The First Summer Term opens on Monday, June 17, 1935, and closes on Friday, July 19, 22, 1935. The Second Summer Term opens on Monday, July 22, 1935, and closes on Thursday, August 22, 1935.

Credit Hours—Students enrolled in any of these short terms will take only two prepared subjects but they will give double time to these subjects. The prepared recitation and lecture periods will extend for two hours while the length of the laboratory period will also be doubled. In this manner, students may earn a full four hour credit in each of the subjects taken and thus avoid the inconvenience of fractional or incomplete credit. Classes during the Summer Terms will meet regularly five days each week. In the First Summer Term, classes will meet on Saturday, June 22, to make up for the Fourth of July holiday.

Classes during the Mid-Spring Term, which extends for six weeks, will observe the regular schedule of float periods.

Tuition and Fees—Resident students of Indiana will pay a contingent fee of \$12.50 per term. Non-resident students of Indiana will pay, in addition to the regular contingent fee of \$12.50, a non-resident tuition fee of \$6.00 per term.

By action of the State Teachers College Board made effective at the opening of the Fall Quarter in 1934 which regulated the contingent fee in proportion to the amount of work carried, students carrying only one prepared subject during the short terms will pay a contingent fee of \$9.00.

Licenses—In short courses offered for these short terms, provision is made for the following groups of teachers:

1. Teachers in the one-room rural schools.
2. Teachers in the primary grades.
3. Teachers in the intermediate and grammar grades.
4. Teachers in the junior high schools.
5. Teachers and supervisors in the grades in the special subjects of art, commerce, home economics, industrial arts, music, and physical education.
6. Principals of elementary schools.
7. Teachers in the high schools.
8. Teachers of special subjects in the high schools.
9. Principals and superintendents.

The legal requirements of the several licenses issued by the State of Indiana and the detailed description of the courses offered by the Indiana State Teachers College to satisfy these requirements may be found in the annual catalog of the college which will be sent to any teacher upon application to the Registrar.

Beginning Students—Classes are organized during the Mid-Spring and Summer Terms for beginning students on all curriculums.

Advanced Licenses—Work will be offered in each of these short terms which is required on the Master's degree in Education and for first grade administrative licenses.

This graduate work is offered only in the field of Education. All courses having the initial number "5" are of the graduate level.

Sequence of Courses—Attention of students who are planning their courses is again called to the fact that the work of the college has been so organized as to fall into two distinct groups, (1) The Junior College and (2) The Senior College. The Junior College comprises the work of the freshman and sophomore years and the Senior College the work of the junior and senior years. Students enrolled in the Junior College may not reach forward into the Senior College while Senior College students may not reach back into the Junior College field for more than ten per cent of their courses. In other words, freshman and sophomore students should take the "100" and "200" courses while students of junior or senior standing should make their selections from the "300" or "400" group.

New Courses Scheduled—Special attention of students is directed to the new courses which have been included in the Summer Term schedules this year. Most of these courses have never been offered at Indiana State Teachers College before and they present a splendid opportunity to teachers in service, as well as to undergraduate students, to secure the most recent information available in the various fields. Liberal allocation of credit will be approved.

These new courses are as follows:

First Summer Term

Art 392, Practical Problems and New Trends.

Commerce 395, Present Trends in Commercial Education.

Education 410-510, Modern Trends in Education.

English 394, Recent Trends in the Teaching of High School English.

Industrial Arts 317, Farm Shop Work.

Music 392, New Trends and Methods in Music.

Physical Education 452, New Trends in Health and Physical Education Methods.

Science 334, Summer Field Course in Botany.

Science 386, Survey of Contemporary Physics.

Social Studies 424, Foreign Governments.

Second Summer Term

Science 471, Public Health Problems.

Science 301, Elements of Astronomy.

Hours of Recitation—Recitation and lecture periods are two hours in length, according to the following schedule:

First Period	7:00- 8:50
Second Period	9:00-10:50
Third Period	11:00-12:50
Fourth Period	1:00- 2:50
Fifth Period	3:00- 4:50

Activities—Convocation periods will be held from time to time during the Summer Terms at the call of the President or the Dean of Instruction. During the Mid-Spring Term, convocations will be held at the regular hour each Wednesday.

Special programs will be offered on the Activities Course during each of the short terms. These programs are not complete at the present time but will include some outstanding lecturers and entertainers.

Director of Student Programs—Students who are nearing graduation should confer with the Director of Student Programs before registering to make sure they are taking the courses required to complete the curriculum upon which they are working. The Director of Student Programs will be glad to confer with any student on problems relating to the selection of his courses.

Advanced Standing—Students entering Indiana State Teachers College with advanced standing will receive credit for all scholarship which such students may possess. Applicants for such advanced standing must present to the
